Forecast for Friday 18 Feb 2022

Weather: Rather cloudy overnight with scattered snow showers merging to longer and heavier periods of snow before dawn. Overcast morning with periods of snow, turning heavy at times. This clears eastwards through the afternoon, as scattered snow showers follow from the northwest, which turn heavier and more frequent during the evening.

Chance of cloud-free hill tops above 800m: 10% at first becoming 75% by late afternoon.

Low Cloud and visibility: Generally moderate to very poor in the periods of snow at first, only a few metres in cloud with bases from 500m extensive during the morning. Becoming mainly good from late afternoon.
